

Light Up A Life 2006!

Home Hospice of Grayson County has been serving this community for 24 years, providing excellent, compassionate care for patients with life-limiting disease, support for their families and caregivers and care and guidance for all who grieve. Whether a patient has resources to pay for such care or not, they are given the highest care available at end-of-life. In recent months, Home Hospice has cared for an increasing number of terminally ill individuals with very limited resources, people who, without our help, are having to choose between the necessities of life and living out their final days, weeks or months surrounded by loved ones and remaining free of pain. Individuals and companies may choose to support Home Hospice of Grayson County during Light Up A Life by being a sponsor at one of the levels listed below. Our goal for this year is to raise more than \$100,000 in patient care funds. Sponsors from the communities we serve will help make this possible. Please take a moment to discover what your gift through a sponsorship could mean for our patients and families. During the past six years, gifts from our sponsors have allowed us to provide some of the items you find below including making a copy of Final Gifts available to each family we serve.
